

## Get a Clinically Efficacious, Easy to Implement, Profitable Treatment Protocol from a Trusted and Respected Source.

**What is it?** Neurovascular Dynamics (NVD, aka Bennett Reflexes) is a clinical system of diagnosis and therapy based upon the neurological control of the precapillary sphincters and lymph circulation. Utilizing palpable reflexes on the surface of the body, you can DIRECTLY RESTORE sympathetic/parasympathetic balance via the vasomotor nervous system, thus optimizing hemodynamics and normalizing the organ's physiology.

Learn how to CONSISTENTLY and PREDICTABLY normalize blood and lymph flow, thereby optimizing nutrition to the cells and facilitating the disposal of metabolic wastes.

**Does it work?** You will be presented with objectifiable, clinical evidence utilizing pre- and post-treatment testing.

**Why should I do it?** To obtain the expertise to truly help your patients with specific illnesses. My clients consistently express their delight in the clinical improvement NVD provides – often with only one treatment! An additional benefit is that they are happy to pay cash for benefits received, thus building a client-demand driven practice. You can also easily incorporate nutritional support with your NVD protocols, thus creating another income stream.

**Who is Dr Richards?** Dr. N. Rowan Richards is a dedicated, internationally recognized, respected chiropractic internist and NVD instructor, with a highly successful cash practice. A Diplomate of the American Board of Chiropractic Internists, she was recently awarded the distinction of being invited to become a Fellow of the International College of Chiropractors. Dr. Richards is also a certified herbalist through the Australian College of Phytotherapy and Texas Chiropractic College, and was elected in 2006 to America's Top Chiropractors – a peer-nomination process. Visit [www.richardsfamilyhealth.com](http://www.richardsfamilyhealth.com) and [www.drrichardstalksback.com](http://www.drrichardstalksback.com).

This NVD Seminar is a 'Must Know' for chiropractic physicians who want to continue to help healing their patients. The course was well organized, Dr. Richards is a great teacher, and I can actually take the information I learned and use it.

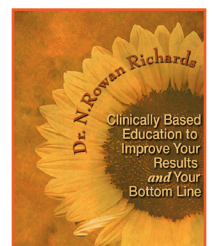

—Dr. Sandra Spore, Stillwater, MN

My body loves NVD. I routinely get a rejuvenation and feeling of well being from my treatments and it lasts. Most recently, I came to the office with debilitating nausea; I could barely move. This condition was totally alleviated with one NVD treatment.

—LM, a patient

Dr. Richards' NVD class will feed or fill a great void in day-to-day correction of systemic health problems. ALL points of the seminar are directly applicable to different patients. The case examples were of great help; and the discussions on the why of the treatment procedures were excellent. It's great that we were able to gain complete hands on efforts for anything which was of question.

—Dr. Gordon Townsend, Redmond, WA

### Neurovascular Dynamics: Lecture and Hands-On Workshop

Presented by

**Dr. N. Rowan Richards, DC, DABCI, FIACA, FICC**
